

Report - 18 January 2018

Last meeting: 23 November 2017 (with an update sent on 16 December 2017)

What I have achieved recently:

- Contribution to the development of our first prototype
- Outline of the new features and of the design to implement on the prototype
- Second interview with the radiologist, and questionnaire completed and sent to the respondents (with Peter)
- Reviewing abstract submissions for Narrative Matters 2018

What I am doing now:

- Supervision of two BSc students for the Short Programming Project course (almost done)
- Developing a taxonomy of user interactions in storytelling to allow an effective story nodes merging/grouping (to be a short paper at EuroVIS 2018, deadline: March 2)
- Attending the Dutch course for beginners
- Writing the introductory essay

What is next:

- Submission of the abstract of the poster *Digital Storytelling for Decision-Making Processes in Medicine* to the ICTopen
- Checking Hora Finita status with Jiri and Jos
- Defining the last details of the MSc thesis topic with the student, (Jiri first supervisor)
- Completing the introductory essay
- Six-month interview
